STP Funding Available:

Illinois Quad Cities: \$4.15 million through FFY2020
Iowa Quad Cities: \$5.40 million through FFY2019

- * For the Iowa Quad Cities, the projects submitted for ranking by the City of Davenport were essentially withdrawn after the technical scoring process and a prior underfunded project already identified in the Transportation Improvement Program (TIP) DA-17-01 was requested to receive additional funds in order to complete the project. DA-17-01 has been programmed \$2,132,949 to date. In Eldridge, West LeClaire Road was a higher community priority than the technical ranking identified.
- ** New targets were provided by the Illinois Department of Transportation with less funding than was anticipated. By extending programming to FFY2020, the Technical Committee recommendation would be amended to shift the 2019 project to 2020 in order to maintain reasonable fiscal constraint.
